100%

World Wide Auctioneers, Ltd.
Construction & heavy Equipment Auctioneer

Since its inception, WWA has sold at auction over 50,500 items construction equipment at its 59 auctions in Dubai from March 2001 through December 2008, for a total amount of over \$739.5 Million in auction value. Along with WWA's other locations and partners this total has reached \$968 Million. WWA controls a market share of over 65% of all industrial equipment auction sales concluded in Dubai from 2005.

WWA continues to pioneer new and innovative Auction technology, such as LCD Auction Displays, Wireless Bidding, Video Auctions, Online Auctions, and Internet Bidding.

100%

Crown Diamond Holdings, Ltd.
Shipping and Marine Services

Subsidiary Crown Diamond Holdings owns its flagship the M.V. Iron Butterfly, a specially equipped RO RO / Heavy lift ship that carry the heaviest equipment cargo for our customers in the Arabian Gulf and Indian Ocean. This vessel is chartered on a bare boat basis to a local operator, who handles freight for many WWA customers from Dubai to India. This shipping arm of WWA Group also owns a 505-ton barge mounted with a dredging arm and 50-ton crane, used on a short term charter basis for offshore projects in and around the UAE.

Infrastructure Developments Corp.
Professional Project Management

Headquartered outside of Washington D.C., IDVC provides engineering and construction services through its subsidiary Intelspec International, Inc. The company aims to fill an underserved niche in the global project management spectrum, targeting specialized projects and subcontracts that are too small to attract the attention of the giant multinational firms but which still require world class engineering expertise.

100%

Intelspec International Inc.
Bringing World Class Expertise to Specialized Projects

Headquartered in the United States, and focusing on projects in the Middle East, East Asia, and Oceania, Intelspec's key managers have decades of project management and engineering experience on all types of projects, from forward base camps to pipelines to major government infrastructure. The company is well positioned to compete in the market for difficult, small to medium sized project management contracts
